We hereby certify that we have examined the books of the Treasurer of the Trustees of the Conway Public Library and find the bills correctly entered and vouchers on file for each and every item paid out.

H. B. COTTON,
Auditor.

The Trustees of the Library and the times when their terms of office expire are as follows:

Clifford H. Craig,	1918
H. B. Fifield,	1918
	1919
	1919
John H. Garland,	1920
Wm. R. Carter,	1920

It will be necessary to elect four new Trustees, two for three years in place of C. H. Craig and H. B. Fifield whose term expires this year and two for one year in place of A. C. Kennett, deceased, and A. L. Knowles, who has removed from town.

Respectfully submitted,

W. R. CARTER, *Chairman.*

H. B. FIFIELD, *Treasurer.*

Papers and magazines,	23 69	
		$ 34 50
Balance on hand, Dec. 31, 1917,		$ 3 48

The records show a slight decrease in circulation, due largely to the fact that no new books were received until late in the year causing a falling off in fiction reading, but it is gratifying to note a growing interest in books of non-fiction, there being an increased use over last year of ten per cent.

A request was received from the War Department, through the American Library Association, for books and magazines for the Training Camps and Cantonments. In

response to this appeal two boxes of books and a large quantity of magazines were collected from patrons of the library and forwarded to the camps under the direction of the State Chairman of the Library Commission.

Among the interesting gifts we have received for the museum is a History of the Puritanism, two volumes, published in London in 1754, the gift of Mr. Whitcomb.

Thanks are due the members of the Woman's Club and others who have brought papers and magazines to the Reading Room from week to week which have been greatly appreciated by its patrons.

Respectfully submitted,

ALICE S. POLLARD,
Librarian.

FREE PUBLIC LIBRARY, CENTER CONWAY.

During the past year the interest in our small library has continued as usual. It is very gratifying that the youth are so eager for the perusal of the books and magazines.

Eighty-six new books have been placed upon the shelves during the year, sixty-nine purchased from the funds of the library; the balance gifts from the J. A. Nesmith family, J. E. Nesmith family, General A. W. Greely, Miss Helen Baird and Mrs. Blouin. Gifts of magazines have been received from General Greely and Mrs. Baird. The usual magazines and papers are to be found upon the table.

The total circulation of books has been 2,549; 1,536 fiction, 779 juvenile, 234 miscellaneous. The usual contribution from Mrs. Comstock supplies St. Nicholas and this year seven books. These gifts are appreciated by all the patrons. Thanks are due to all interested in the library.

Respectfully submitted,

ABBIE M. D. BLOUIN,
Librarian.

Report of School Board

To the Citizens of Conway School District:—

In compliance with the usual custom, we submit for your consideration the following report which includes the report of the superintendent of schools and a financial statement of our accounts ending February 1, 1918. The following law was passed at the last session of the legislature: chapter 122, section 1, which reads as follows: "The fiscal year of town and special school districts beginning February 16, 1917, shall end August 31, 1918, and thereafter the fiscal and scholastic year shall end August 31, annually." This change was approved by the Governor on April 4, 1917, after we had held our school meeting and made our appropriations for the year, therefore, we have not sufficient funds to carry our schools to August 31st. It will not only be necessary to to raise and appropriate enough to run the schools for the fiscal year from August 31, 1918, to August 31, 1919, but an extra amount sufficient to run the schools to August, 31, 1918. After this year, the amount to be raised and appropriated at the annual meeting will be for one fiscal year beginning August 31st. The change made by the legislature makes the fiscal and scholastic years agree which they did not before by about five months. A financial report is made for the schools up to February 1, 1918, but the books will not be closed and audited till August 31, 1918.

Report of Superintendent of Schools

Mr. Chairman and Gentlemen:—

I have the honor and pleasure to submit for your consideration my sixth annual report of the schools of Conway, it being the ninth in the series of such reports.

ORGANIZATION

As a result of careful study and observation for several years of the lowest grades in our schools, it seems to me to be desirable to make a change in our organization at least in the first three grades. So many of the children in the first and second grades lose so much time that they are not able to complete the work of the grade in a manner to enable them to do the advance work satisfactorily. They know too much to begin at the beginning and not enough to go on. I suggest that we use half year promotion in these grades so that there will be opportunity for each pupil to move on as fast as he is capable of doing the work. Therefore, if a child is absent rom one-fourth to one-third of the time, it will be possible for him to complete a half year's work while with our present annual system of promotion the child loses a whole year. With the new arrangement, he would lose but one-half year. I think that adjustment may be made in the third and fourth grades so that the loss, if any, will be slight to the child and we shall not be obliged to carry the method through the whole elementary school system.

The upper grades should be organized into a junior high school and made a part of our high school. This will give us six years in the elementary school and six in the high school. The schools will be ready for this arrangement in the fall if it is thought desirable. We are already giving a course in inventional geometry in the seventh grade and algebra in the

eighth as a part of the course in mathematics. The superintendent is working out a course of study for the geometry as none is outlined in the state program.

CARE OF BOOKS AND SCHOOL PROPERTY

At the April meeting, the School Board made the following rule for the care of books and school property to be put into operation at the beginning of the fall term 1917:

Any high school pupil who marks, cuts or otherwise damages school furniture shall be given a reasonable time to have same properly repaired and a failure on his part to do so, after having been notified, shall mean suspension from school until the damage has been satisfactorily repaired.

Books that receive unreasonable wear, are torn, marked or otherwise damaged shall be paid for by the pupil, the book then to become his property and so marked by the principal or superintendent. A failure to do so by a pupil, within a reasonable time, shall mean suspension from school till satisactory adjustment has been made.

REPAIRS

The repairs for the year have been: at North Conway, a new radiator to take the place of a leaky one, and the south side of the roof shingled; the roof of the West Side school house repaired; new furnace grates at Conway; and more or less repairs on the electric pump at Center Conway.

TRANSPORTATION

Transportation of school children has been by eight teams as follows: Lewis A. Willey from Intervale to North Conway, James McGuinty from Redstone to North Conway Charles E. Hatch from West Side to North Conway; Mr. A. M. Littlefield from East side to Center Conway; William Jackson from South Conway to Center Conway; S. Wesley Hill from Green Hill to East Conway; Fred Sawyer from North Conway road to Conway, and Mr. A. G. Marston for the fall term and Mrs. Charles Ham for the winter term from the Stark neighborhood to Conway village. Our transportation costs us $14.20 per day or $71 per week. This is a heavy expense for the district.

TESTS

Standard efficiency tests have been given above the third grade in writing, spelling, English, arithmetic and reading. The results of these tests are reported to the teacher in charge of the room so that she may know how her class as a whole stands. These also give her a standard of efficiency measurement as well as a progress record.

PLAYGROUND APPARATUS

The following playground apparatus has been purchased for the North Conway school with funds earned by the school children: athletic slide, volley ball and net, see-saws, catch ball for the smaller children, and a giant stride head. This is to be set as soon as the ground is suitable in the spring.

MUSIC and DRAWING

Music and drawing have been under the same efficient supervisor and teacher as last year, Miss Marion M. Stephen. During the year, the schools under the leadership of Miss Stephen have given three musicals—two at Conway and one at North Conway. The funds earned have been used for playground apparatus and Red Cross work.

Through the effort of Miss Stephen, the school children of Conway Village had the rare privilege of listening for an hour to Carl Behr, a famous cello ank zither player.

Mechanical drawing is taken by some of the boys in the high schools while some of the girls are doing studies in water color. The drawing in the grades is well organized and has seasonal applications to teach the fundamental principles. The results will stand inspection and compare favorably with other schools.

HIGH SCHOOLS

I have not asked the head masters to report this year owing to the fact that they have held the positions but a short time.

Last ſune, two boys graduated from the North Conway

high school. One, Stanley Hamilton, has entered the University of Maine by certificate, and the other, Reginald Eastman, is continuing his study of music in Portland.

Conway High school graduated a class of eight with the following program:

MEMBERS OF 1917 GRADUATING CLASS

Marian Clara Churchill, Nellie Anne Dolloff, J. Austin Hiscock, William Booth Hounsell, Ruth Madeline Long, Clifford Herbert Lowd, Clayton Woodbury Towle, Hazel Maud Towle.

Class Motto—B^2

Class Colors—Old Gold and Blue

These are the first pupils to graduate from an approved first class high school in Carroll County. Since graduation another boy has completed the work of the high school and received his diploma. This makes a total of eleven graduates from our high school for the first class. Of those graduating from the Conway High School, we find one in Colby College, two in New Hampshire State College, one in Gray's Business College and one teaching.

Simmons College has placed the Conway High School on its list of schools with a certificate privilege for one year.

Enumeration

The enumeration of the school children last September showed 305 boys and 277 girls in town between the ages of five and sixteen years.

GIFTS

On behalf of the North Conway schools, I wish to acknowledge the gift of two pictures of New Hampshire scenery and one of child life by Mrs. Gabriella White. These are to be hung in the lower grade rooms.

Anna Stickney Chapter D. A. R. gave two cash prizes in the high school and the same in the grammar school for the two best essays written on some historical subject connected with the state of New Hampshire.

MEDICAL INSPECTION

As required by law, the District must vote annually on whether or not it will have medical inspection in its schools until the same has been adopted. I trust that the article will be considered favorably.

The following data on the health of school children compiled after a careful study may be of interest: "It cannot be taken for granted that school children are healthy. The majority are not as healthy as they should be. Two per cent of all the children in the U. S. have heart trouble, five per cent tuberculosis, five per cent spinal curvature, over five per cent defective hearing, twenty-five per cent defective vision, twenty-five per cent suffering from malnutrition, thirty per cent enlarged tonsils and adenoids that need attention, fifty per cent defective teeth which are interfering with health and about seventy-five per cent of children in this country need attention from physical defects."

HOMEGARDENS

Two hundred sixty-four of the school children reported that they had home gardens the past summer which they cared for. We have no way of knowing the amount of food raised in these gardens. We hope that the coming summer will see the number and size of gardens increased. It is a time when every child should do what he can toward producing. In the whole supervisory district there were reported 417 home gardens cared for by school children.

CONCLUSION

On January 16, 1918, I tendered my resignation as superintendent of this supervisory district as I had been elected superintendent of the Claremont-Charlestown district which I consider a professional advancement. The Joint Board met January 26th, released me from my contract and accepted my resignation to take effect March 1, 1918. This favor, on the part of the Board, I very much appreciate as I can now honorably accept the position of advancement. The five and one-half years during which I have labored with the schools of this district have not been entirely without success. My official relations with the Board have always been pleasant and any differences of opinions have been amicably met. In many ways I regret leaving this position and the attendant associations but feel that I should be dishonest to myself not to accept the greater responsibility and professional advancement for which I have studied to prepare myself.

I wish to take this opportunity to express my appreciation of the support, council and co-operation which you, gentlemen, have given me while acting as the superintendent of your schools. I also wish to thank the parents, pupils and teachers for the part they have contributed to make possible whatever success has been achieved during my period of service.

Respectfully submitted,

ALONZO J. KNOWLTON, Supt. of Schools
